## SIDE OPENING DOOR LEFT TO RIGHT CONVERSION

Side opening door models can be converted from left hand opening (as delivered) to right hand opening. It is recommended that the installer complete the door conversion at the time of installation. To do this, use the following instructions.

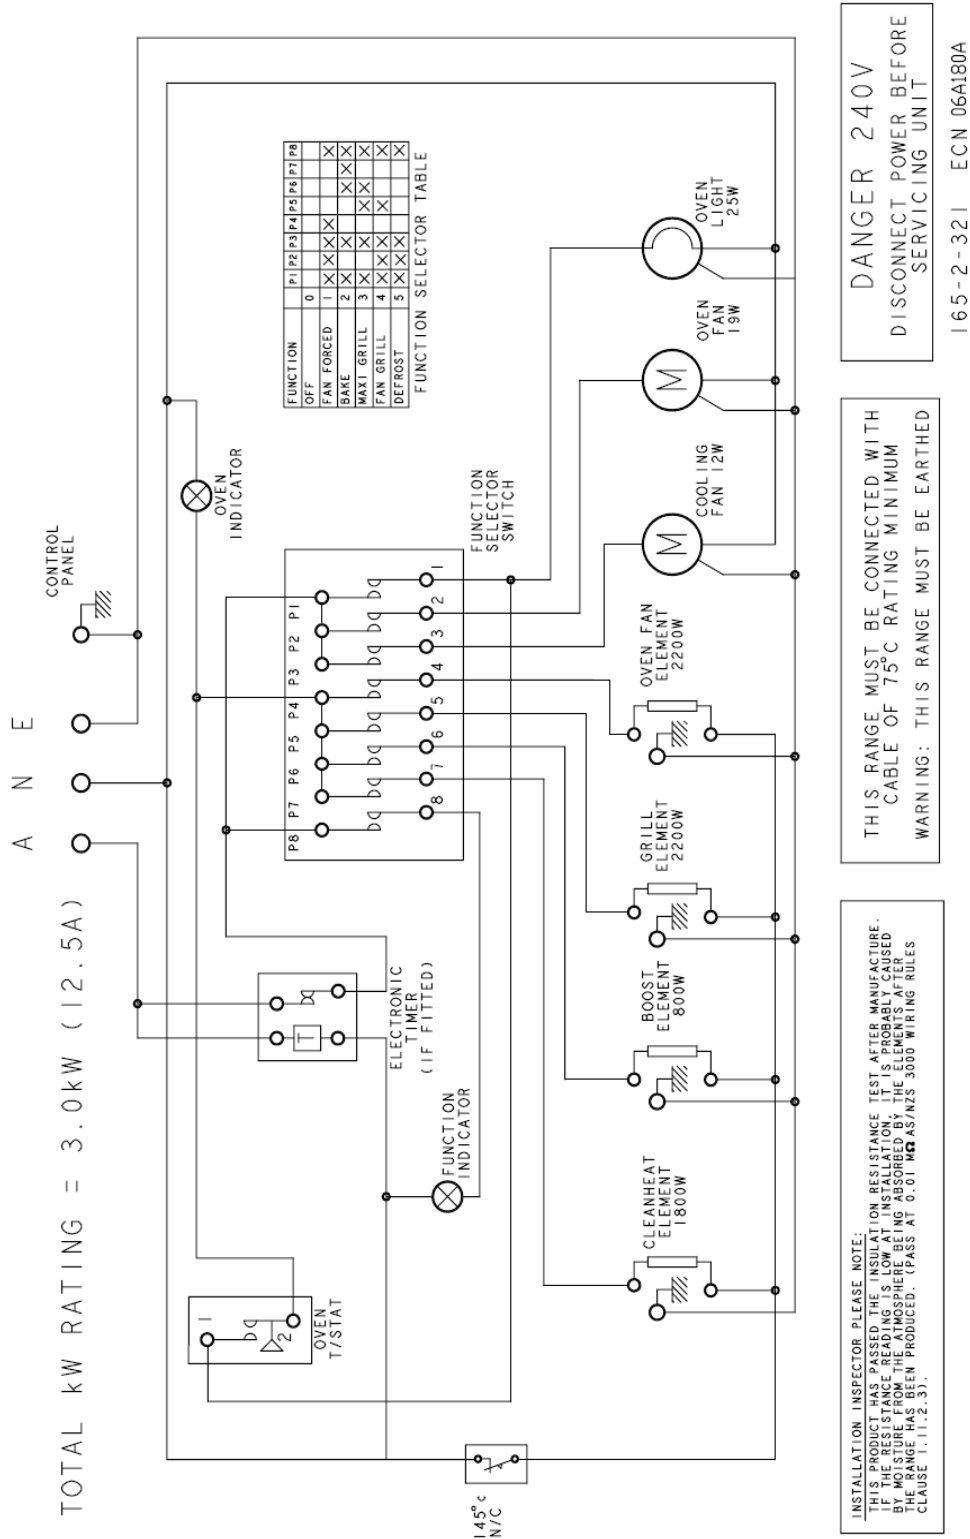

- Open the door fully so access to the top hinge bracket can be had with a Phillip's head screwdriver.
- Whilst ensuring the weight of the door is supported, unscrew the two screws at "A" on the top hinge bracket.
- Tilt the door slightly away from the appliance and the door can now be lifted off the bottom hinge bracket.
- Place the door down on a safe and stable surface and ensure the top bracket is also placed in a safe place.
- The door has two pivot pins and washers beneath each hinge bracket. Ensure these are not lost, as they will be needed to reassemble the door.
- The top hinge bracket can now be screwed to the bottom hinge position on the opposite side. Using the two screws previously removed, insert and securely tighten.
- Remove the two screws at "C" on the bottom hinge bracket.
- Remove the plastic plug on the front frame at "B" then remove the insert from the opposite side. Then reverse these and insert them in the holes of the front frame. Note: To remove the two small plugs a small flat bladed screwdriver will be needed.
- The oven door is symmetrical and is now rotated 180 degrees so the handle is on the opposite side. The door is now ready to be refitted.
- Ensure that the pivot pins and washers are in place and place the bracket previously removed from "C" on the top hinge bracket of the door.
- Position the door bottom pivot pin into the bottom hinge bracket and tilt the door back towards the appliance so the top bracket is aligned with the mounting holes.
- Whilst supporting the weight of the oven door insert the two remaining screws and tighten.
- Check carefully that the oven door can be closed and opened and is operating correctly.
- Lastly, insert the square plastic trims (provided with the oven) into the hinge brackets at "D".
